

Monmouth County Mobile Connection stops in Shore area

Government services will be available on wheels to residents

THE COAST STAR

Monmouth County Clerk Christine Hanlon, Surrogate Rosemarie Peters and Sheriff Shaun Golden are teaming up to deliver county services and programs directly into communities through the new Mobile County Connection.

"We are proud to have formed such an important outreach program," Christine Hanlon, Monmouth County Clerk, said. "It is the first of its kind in Monmouth County and features mobile government services in an effort to connect people with government in their communities."

The Mobile County Connection office is housed in a large mobile command center and will be rolled out at the Wall Township Library, 2700 Allaire Road on Sept. 10 from 10 a.m. to 1 p.m.

During the event, residents will be able to apply for and renew their passports as well as have passport photos taken. Residents will also have access to free notary services and voter/election information. The Monmouth County Sheriff's Office will be offering Youth and Ident-Adult Identification Cards and information on the proper installation of child safety seats, along with other agency services. In addition, there will be information on the Monmouth County Surrogate's Office regarding estate, guardianship and adoption services and other programs offered throughout the county.

"This new Mobile County Connection enhances our continuing efforts to make government services and public safety initiatives more accessible to the residents of Monmouth County," Sheriff Shaun Golden said. "We anticipate the Mobile County Connection to be a tremendous success as it travels to municipalities, senior centers

and libraries throughout the county to serve the public's needs in a timely and convenient fashion."

"We look forward to bringing the Mobile County Connection to communities and meeting the residents who will utilize its services," Rosemarie Peters, Monmouth County Surrogate, said. "Having access to county government services on wheels allows us to better serve the public."
