

SUNNYSIDE MANOR

The Area's Premier Family Owned & Operated Senior Living Community

October 16, 2020

Dear Residents, Resident Representatives, Families and Friends,

We don't have much to report this week, which is a good thing during the time of a pandemic. We continue to test our staff members for COVID-19 on a weekly basis, as we have for the past number of months, and we have not had any new positive test results. We are preparing for the upcoming flu season, and this past week finished giving flu vaccinations to our residents.

We continue to stress proper use of PPE and infection control protocols. In fact, yesterday we had an activity in our Skilled Nursing neighborhood for Global Handwashing Day. Each year on October 15, Global Handwashing Day serves as a reminder that handwashing is one of the best steps we can take to avoid spreading germs to others. The staff had fun applying "glow germ" and then washing their hands. After washing, a blue light revealed if any germs were present. The residents even got involved by creating a hand-print banner. It was a fun way to promote handwashing.

We can't stress enough the gratitude we have for our employees. Their dedication to the safety, care and wellbeing of our residents during these difficult and uncertain times is awe-inspiring. They are the fabric that makes Sunnyside Manor so special.

We hope you have an enjoyable weekend. Please stay safe.

Regards,

The Keane Family
