

SUNNYSIDE MANOR

The Area's Premier Family Owned & Operated Senior Living Community

October 23, 2020

Dear Residents, Resident Representatives, Families and Friends,

Earlier this week, we reported to you that a staff member had tested positive for the COVID-19 coronavirus. As soon as we became aware of this situation, we began testing all of our residents for COVID-19. In accordance with the current guidance, a person must receive two COVID-19 tests with negative test results to confirm that he or she is not infected.

As of this writing, we have received the first-round test results for all but one resident, and we are very pleased that every test has been reported as negative. The one outstanding test result is NOT indicative that this resident might be positive. Results are reported to us in groups as they are processed, and this resident's test has simply not yet been processed. This morning, each of the residents were tested a second time as part of the testing protocol. In addition, the test results for our staff members have all also come back as negative, although the results for roughly 40 staff members have not yet been received.

If the results for the remaining tests come back as negative, we are hopeful that we will be able to resume outdoor and essential caregiver visits next week. We realize that temporarily halting these visits is difficult on everyone. As soon as we are able to resume these visits, we will be reaching out to you.

We will continue to keep you informed as we receive updates. Once again, we wish to thank you for all your support and understanding. We hope you have an enjoyable and safe weekend.

Regards,

The Keane Family
