

SUNNYSIDE MANOR

The Area's Premier Family Owned & Operated Senior Living Community

October 29, 2020

Dear Residents, Resident Representatives, Families and Friends,

We are writing to inform you that a staff member in our Skilled Nursing neighborhood has tested positive for the COVID-19 coronavirus. This staff member is not part of our direct care staff and, therefore, has not provided care to any of our residents. As you are probably aware, all of our staff members are tested for COVID-19 on a weekly basis. This weekly testing has allowed us to detect the presence of the coronavirus in an asymptomatic individual. Because of this, we are cautiously optimistic that this will be an isolated incident. This staff member will not be permitted to return to work until all the required protocols have been met and our hope is for a speedy and complete recuperation at home.

In accordance with the guidelines established by the New Jersey Department of Health, Sunnyside Manor is still considered to be in Phase 2 of the phased reopening. Out of an abundance of caution and with the safety and welfare of our residents being our utmost concern, we are temporarily halting distanced communal dining and activities for 14 days. This 14-day period started on October 28th, which was the last day the infected staff member was in the building. We have completed the first round of testing for all of our residents for COVID-19, and we will update you once we receive test results.

We are committed to total transparency and to providing you with updates as any situations arise at Sunnyside Manor. We will continue to notify you via email as we receive additional information. Thank you for your ongoing support.

Regards,

The Keane Family
