

*The Area's Premier Family Owned & Operated Senior Living Community*

December 22, 2020

Dear Residents, Family Members and Resident Representatives,

As we know, a COVID-19 vaccine will soon be available to all residents. We are working closely with Walgreens, our designated pharmacy, to ensure we are properly prepared when the vaccine becomes available to us. We have not yet been informed when the vaccine will be administered, and we will be sure to provide updates as we receive them.

In the meantime, we will need to obtain a signed pharmacy consent form in order for the vaccine to be administered. Please read the attached EUA Fact Sheet, as the Fact Sheet is referenced in the consent form. If you are able, please sign the attached consent form and submit a scanned copy via email to Pam Gormley (Skilled Nursing), Jeana Tafrow (Assisted Living) or Laura Polimine (Recollections). If submitting a signed form is not possible, we are permitted to accept a verbal authorization over the phone. We will be following up with you via telephone.

We encourage as many residents as possible to get this vaccine. The elderly have a much higher risk for getting very sick, being hospitalized, or dying from COVID-19. The vaccine has been shown to provide a great deal of protection against serious illness due to COVID-19. **The more residents that get vaccinated, the better we can protect our community against potential outbreaks and save lives.**

**Please read the attached EUA fact sheet and contact Pam, Jeana or Laura with any questions.** Potential side effects are listed on the fact sheet. You will find that these side effects are similar to the potential side effects of the flu shot, but they occur more frequently. We have also included a Frequently Asked Questions publication issued by the CDC. The vaccine requires two doses. Residents will need to get both doses to ensure the best results. The second dose will be given approximately 21 to 28 days after the first dose.

We will continue to take all necessary precautions after the vaccine is administered, including wearing personal protective equipment and conducting regular testing, to ensure the safety of our residents and staff. We will also work with public health officials to determine how and when to adjust our policies for visitations and social activities and keep you updated.

We are hopeful that the vaccine will be a lifesaving turning point in the fight against COVID-19. Please do not hesitate to reach out to us with any questions. You may also visit [www.cdc.gov/coronavirus/2019-ncov/vaccines](http://www.cdc.gov/coronavirus/2019-ncov/vaccines) to learn more about the vaccine. Please don't

hesitate to share any comments, concerns or questions. Thank you for your ongoing support. We are all in this together.

Regards,

The Keane Family
