¹ Essential Caregiver visits may not resume until all residents and staff have received two weeks AND two rounds of testing with no further positives. Delays in receiving test results may impact the estimated date to resume Essential Caregiver visits.

Last Friday, our residents and staff members received their first round of the COVID-19 vaccine. Walgreens will be back on-site Friday, February 5th to administer the next round of the vaccine. Residents and staff who did not receive the vaccine last week will have the opportunity to get the vaccine at this time.

This week, the testing frequency of our staff members increased to twice a week. This will continue as long as our regional CALI (COVID-19 Activity Level Index) remains in the High/Very High level.
