

The Area's Premier Family Owned & Operated Senior Living Community

February 12, 2021

Dear Residents, Family Members and Resident Representatives,

We are not aware of any new cases of COVID-19 since our communication to you in late January. The table below reflects the current status of our neighborhoods. Since we are still waiting on test results for some of our staff, we have had to delay our resumption of Essential Caregiver visits until this Monday, February 15th.

Neighborhoods: All		
Activity	Status	Service Resumption
Outdoor Visits	Allowed	N/A
Essential Caregiver Visits ¹	Suspended	Visits resume 2/15/21 ¹
Compassionate Care Visits	Allowed	N/A
Bereavement Visits	Allowed	N/A
Indoor Visits	Suspended	Suspended due to NJ CALI score
Dining	In room	Communal dining 2/26/21
Activities	In room	Communal activities 2/26/21

¹ Essential Caregiver visits may not resume until all residents and staff have received two weeks AND two rounds of testing with no further positives. Delays in receiving test results may impact the estimated date to resume Essential Caregiver visits.

Most of our residents and staff member received their second dose of the Pfizer vaccine last Friday. A few received their first dose, and will receive their second dose when Walgreens returns in a few weeks.

For many of us, the news of the vaccine gave us tremendous hope. We believed things would quickly open up and restrictions would ease once we were vaccinated. Now that the vaccine is being administered and we face many of the same restrictions, for some people that hope has turned to despair. The CDC and the NJ Department of Health have expressed deep concerns about the impact that isolation has had on our seniors, and we are hopeful that revised requirements are forthcoming.

This week the New Jersey CALI score improved from High to Moderate in some parts of the state. If this trend continues and our area improves to Moderate, we will be able to open indoor visitation. In the meantime, we have been evaluating each and every resident to see if a Compassionate Care visit is warranted. If you see a condition in your resident loved one that could be improved from a non-routine Compassionate Care visit, we urge you to bring this

information to our attention. We have been living in these unprecedented times for close to a year, and we are doing everything in our power to lessen the impact to our senior population.

We continue to be grateful to you for your ongoing support. Please don't hesitate to share any comments, concerns or questions. We are all in this together.

Regards,

The Keane Family
