Dear Residents, Family Members and Resident Representatives,

A staff member in our Skilled Nursing neighborhood has tested positive for COVID-19. This staff member has received both rounds of the COVID-19 vaccine. We've also learned that an Essential Caregiver has tested positive for COVID-19. This caregiver has also received both rounds of the COVID-19 vaccine, and has not been inside Sunnyside in over three weeks.

Unfortunately, these test results further delay our resumption of services in our Skilled Nursing neighborhood. The schedule for Assisted Living and Recollections has not changed. Please see the revised schedules below.

Walgreens will be here today for our third and final COVID-19 vaccination clinic. The majority of today's vaccines will be administered to those receiving their second dose of the vaccine, although a handful will be receiving their first dose today.

We continue to be grateful to you for your ongoing support. Please don't hesitate to share any comments, concerns or questions. We are all in this together.

Regards,

The Keane Family
