

The Area's Premier Family Owned & Operated Senior Living Community

April 23, 2021

Dear Residents, Family Members and Resident Representatives,

We are pleased to report that our Skilled Nursing neighborhood is no longer considered to be in outbreak status, which means that our indoor visits and Essential Caregiver visits may resume. We share this news with cautious optimism, because any future positive test results, whether the person is fully vaccinated or not, will require us to suspend visits again.

Indoor visits and Essential Caregiver visits are still suspended for our Assisted Living and Recollections neighborhoods. We received notice that a staff member, who had been administered both rounds of the COVID-19 vaccine, tested positive for COVID-19. This further suspends our indoor visits and Essential Caregiver visits until May 3rd. We conducted a risk assessment to determine whether we can continue to cohort our residents for dining, given the positive COVID-19 test result. Based on our risk assessment of a variety of factors, such as the vaccination status of our residents, we are comfortable that we can safely continue to cohort our residents for their meals in our common dining areas.

As a quick update, the springtime weather seems to be lifting all of our spirits. Our residents have been spending more time outside with the warmer weather, and are really enjoying their time in the sunshine. We just purchased brand new patio furniture for our Recollections deck, and earlier this week we were delighted to see a few residents on the deck soaking up the sun.

We are still awaiting updated guidance from the Department of Health, which we expect to further relax some of the visitation restrictions that are in place. We appreciate your ongoing support. It means so much to us. We are all in this together.

Regards,

The Keane Family
