

The Area's Premier Family Owned & Operated Senior Living Community

April 8, 2021

Dear Residents, Family Members and Resident Representatives,

We are writing to inform you that a fully vaccinated asymptomatic Assisted Living staff member tested positive for COVID-19. As soon as we received this test result, we administered a follow-up BINAX rapid test and the test result was negative. Despite this follow-up negative test result, the NJ Department of Health guidance still requires that we further delay indoor visits for Assisted Living and Recollections.

Based on this, the suspension of indoor visitation for Assisted Living and Recollections has been further extended until April 20th. We expect indoor visitation for Skilled Nursing to resume next week. The reopening dates may vary slightly since these dates are dependent on the timing of test results. We will continue to work with those who have scheduled indoor visits to see if the circumstances warrant a compassionate visit, since compassionate visits have not been suspended.

Our trial cohort dining program continues to be a huge success, as our residents are so happy to enjoy their meals in the common dining areas once again. We conducted a risk assessment to determine whether we can continue this program, given the positive COVID-19 test result. Based on our risk assessment of a variety of factors, such as the vaccination status of our residents, we are comfortable that we can safely continue to cohort our residents for their meals in our common dining areas.

Thank you for your ongoing support. It means so much to us. We are all in this together.

Regards,

The Keane Family
