

# SUNNYSIDE MANOR

*The Area's Premier Family Owned & Operated Senior Living Community*

December 10, 2021

Dear Residents, Family Members and Resident Representatives,

We're happy to report that we haven't received any further positive test results for COVID-19 since we last wrote to you. The latest news about the highly contagious nature of the omicron variant is concerning, although preliminary evidence seems to suggest that omicron is milder than the delta strain. As we've been doing since the pandemic began almost two years ago, we'll diligently monitor the available data and update you as we learn more.

We're currently in the process of implementing Accushield Sign-In Health Screening Kiosks at Sunnyside Manor. Accushield is considered the industry leader in this technology. This will streamline the screening process for residents, visitors and staff members. As a visitor, once you manually enter your information into the kiosk, you will be able to use the mobile app with the Accushield scanner for when you sign in and sign out. The mobile app allows for a "touchless" and even faster screen-in process. Accushield brings other benefits, such as the ability to print an evacuation report in the case of an emergency. We ask for your patience as we implement this exciting technology.

Thanks to all of you for your ongoing support. Please don't hesitate to share any comments, concerns or questions. We are all in this together.

Regards,

The Keane Family
