

*The Area's Premier Family Owned & Operated Senior Living Community*

January 21, 2022

Dear Residents, Family Members and Resident Representatives,

We're very happy that we do not have any additional cases of COVID-19 to report in this week's letter. All test results have been received from the last round of resident testing, and they are all negative. The final round of resident testing for our Skilled Nursing neighborhood will be done this evening, and the final round of testing for our Independence 'Plus' Assisted Living and Recollections neighborhoods will be done on Monday. If these test results are all negative, we will be able to resume communal dining next week.

As expected, New Jersey appears to have turned the corner on the omicron variant surge and is now experiencing a significant decline in new cases. To give an example, in early January at the height of the omicron wave, New Jersey had over 32,000 new cases in one day. Over the past few days, the number of daily new cases has been in the 10,000 to 12,000 range. We don't believe we are out of the woods yet, although we are very encouraged by the rapid reduction in new COVID-19 activity.

Thanks to all of you for your ongoing support. Please don't hesitate to share any comments, concerns or questions. We are all in this together.

Regards,

The Keane Family
