Dear Residents, Family Members and Resident Representatives,

We're writing to let you know that a staff member has tested positive for COVID-19. This staff member is not a direct caregiver, and provides services in our three neighborhoods. This positive test result does not have any impact on our visitation.

Despite this positive test result, we are pleased to see the New Jersey CALI score continue to move in the right direction. Our residents and staff members have been enjoying the additional activities and outings we've been able to bring back. We're currently in the process of planning our St. Patrick's Day festivities!

As we mentioned last week, we've modified our visitor testing policy to test only those that are not fully vaccinated. In order to streamline and automate the process of alerting our staff when an unvaccinated visitor needs to be COVID-tested, we're configuring our Accushield screening kiosks to maintain each visitor's proof of vaccination on file. As such, we will be asking our visitors to show proof of vaccination over the next few weeks so we can build our database.

As always, we thank you for your ongoing support. Please don't hesitate to share any comments, concerns or questions.

Regards,

The Keane Family
