

SUNNYSIDE MANOR

The Area's Premier Family Owned & Operated Senior Living Community

March 24, 2023

Dear Residents, Family Members and Resident Representatives,

We don't have any additional cases of COVID-19 to report and the number of new cases in the community continues to move in the right direction. The New Jersey Department of Health's COVID weekly activity report is now showing Monmouth County as Green (Low). It's been quite a while since this has happened.

As the weather gets warmer, we're looking forward to having more of our residents enjoy the outdoors. In fact, we are in the planning stages of building a Monarch Butterfly Waystation on our back lawn. Each fall, hundreds of millions of monarch butterflies migrate from the United States and Canada to mountains in central Mexico. A monarch waystation provides the resources needed for monarchs to produce successive generations in North America, which in turn sustains their annual migration in the fall. Our monarch waystation will be contributing to the preservation of the species and help to continue the spectacular monarch migration phenomenon. We're going to begin the ground preparation and plantings over the next few weeks to allow time for the plants to become established before the weather becomes too hot. We believe this will be a pleasant addition to our grounds.

This Sunday looks to be a beautiful day and we hope you are able to enjoy the spring weather. As always, we appreciate your ongoing support.

Regards,

The Keane Family
